

Self Evaluation Document

Name: Stephen MacNeil

Introduction

This can be taken from your group introduction and should include provide a high level description of the problem, motivation for why it is a problem, a proposed solution and evidence to support the efficacy of your solution.

Role Description

Describe why your role is needed and how it fits within the broader context of your group. Will the role be dynamic or static? Will you share responsibilities with other group members? How will you communicate with your group. How will you track your performance throughout the semester? Why is this role important?

Personal Goals

Why did you chose this role? What do you intend to gain from this experience?

Object Responsibilities

A list of **MEASURABLE** responsibilities in the following format:

- Responsibility Name: description about the responsibility and a metric that **THE INSTRUCTOR** can use to evaluate your performance. Example of measurable metric:
 - I will create 3 attendance reports containing the number of students that attended each of our 3 outreach events.
